

Digital Extra Loud Big Button Speakerphone

# Louder. Clearer. Easier to use.

The Alto family of phones are the first to pass strict new industry standards for amplified phones set by the Telecommunications Industry of America (TIA). TIA-4953 measures the acoustic performance and tone control of amplified phones to ensure the best possible sound output is available for individuals with hearing loss. These 53dB phones are the ideal solution for those with mild, moderate and severe hearing loss. The ergonomic buttons and controls are perfect for those with arthritis.

## Features

- TIA-4953 certified for mild, moderate and severe hearing loss
- Amplifies incoming sounds up to 53 decibels and outgoing speech up to 15 decibels
